Press release Prix Versailles World Finale 2020: 24 architectural projects crowned around the world

94 projects, involving 38 countries and representing less than 1% of the total new projects reviewed in the early stages, were selected to participate in the World Finale for 2020.

The World Judges Panel, comprising former UNESCO Assistant Director-General for Culture Francesco Bandarin (Chairman of the Panel), David Adjaye, Baltasar Kormákur, Alina Cojocaru, Lu Wenyu, Thom Mayne, Anne-Sophie Pic and Trần Anh Hùng, voted to award the World Titles in all of the Prix Versailles categories: Airports, Campuses, Passenger Stations, Sports, Shops & Stores, Shopping Malls, Hotels, and Restaurants.

In revealing these world winners, the Secretary General of the Prix Versailles, Jérôme Gouadain, emphasized the fact that all the prize-winning architectures have embraced a sustainable approach.

Everyday locations and infrastructure can truly be sources of value creation, centred around social, cultural and ecological standards.

Based on this orientation, stylistic excellence and diversity should be encouraged on a global scale, in the work done today and going forward.
